10ml twice a day (or) As directed by the Physician

## Presentation

200ml

Kindly Prescribe ...

SKM Heptowin - to keep the liver diseases at bay !

# SKM Heptowin<sup>®</sup> (SYRUP)

Liver restorative

## ***Swertia chirata***

Chirata contains *amarogentin* - a glycoside that perhaps fortifies the liver against toxicity caused by various chemicals. The phytoconstituents present in the plant encourages the flow of bile and also beneficial in curing dyspepsia.

## ***Eclipta alba***

*Wedelolactone*, an active principle compound of this plant is used for treating liver disorder. It is recommended to be highly useful in enlarged liver, spleen etc.

## ***Phyllanthus niruri***

A popular hepatoprotective Indian herb on the basis of two of its bioactive lignans, *phyllanthin* and *hypophyllanthin*. It also finds its use in the treatment of hepatitis B.

## ***Tephrosia purpurea***

*Purpurenone*, the major bioactive flavanoid present in the roots of the plant is well known for its hepato-protective and stimulant activity.

### **Indications**

Jaundice | Hepatomegaly | Spleenomegaly | Sluggish liver  
Alcoholic and drug induced hepatitis | Loss of appetite and indigestion  
Acute & Chronic viral hepatitis | Cirrhosis
